Re: Deficient Notice of Intention to Commence Small Mining Activities, Young Stone Supply, Inc., Heber Red Quarry, S/051/003, Wasatch County, Utah

Dear Mr. Hicken:

On September 9, 1999, we received your Notice of Intention, concerning your proposed Heber Red small mining project located in Wasatch County, Utah. The notice does not satisfy the requirements of Rule R647-3 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq., Utah Code Annotated.

Due to a Memorandum of Understanding with the Department of Environmental Quality, we are required to forward a copy of the notices to the Division of Water Quality for their review. They will also need the location of the proposed project site. You will also need to contact their office to see if additional permits are required before commencing any activity at the site.

The following information is still required by this Division:

Page 2 of the Notice, Number II - Project Location & Map - R647-3-105 - Project Location and Topographic Base Map. Your notice states: "I am working on this map. I will send ASAP."

We suspended further review of the notice while awaiting this additional information. To date, we have not yet received the required information, and your notice cannot be considered complete. All other information in the notice satisfies the small mining rules. However, operations at the site **cannot** commence until you have satisfied all the requirements and received written acceptance from the Division.

The Division will suspend review and await the additional information. In reply, please refer to S/051/003. Thank you for your cooperation.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
